Eco Church Facts

The Intergovernmental Panel on Climate Change was formed in 1988 to collect and assess evidence on climate change. Since then, it has produced a series of alarming climate models. Under these models, most of the planet's ice cover would melt by the end of the century and trigger a cascade of irreversible consequences, including flooding strong enough to engulf entire cities. - Check the food miles and buy local or British if possible
- If you are buying a car, think carefully about its impact on the planet and consider an electric car

- Place your table or desk by a window so you do not need a light on

Marks's Gospel

Over the last year of lockdown and restrictions, a small group have been journeying with me, on Zoom, through the Gospel of Mark using Tom Wright's book 'Mark for everyone'. So, I wonder, would others like to take up this journey with me? We meet on a Monday night at 7.00pm for just one hour, twice a month. If you are interested, would you email me at derek.welsman@outlook.com.

Zoom Evening Prayer

As a church, we recognise that many are still not able to attend worship on a regular basis. We provide weekly services that can be watched at home, but at times we have also provided evening prayer by zoom. If people would be interested in doing evening prayer each Wednesday with me at 5.00pm, then would you please contact me at derek.welsman@outlook.com
