ECO TIPS: Get sustainable in the garden

It can be really tempting to tidy up the garden ahead of the winter, but leaving parts un-pruned is important for wildlife and biodiversity. Leaving a thin layer of leaves across your lawn and flower beds will nourish your soil, while protecting plants against cold weather. You could rake a larger pile into a corner to provide a great habitat for insects. Leaving seed heads on flowers that have gone over will provide food for birds over the winter too.

Teddy Bears please!

Maureen Pack is running a Teddy Tombola at the Midhurst Fair on Friday 4th December, raising money for Chestnut Tree House. So, if anybody has got old teddy bears that they no longer need, please pass them on to Mo. You can contact her by email here: davidpack3@gmail.com
